BioCapital*

Clinical research is a delicate ecosystem

The right strategic outsourcing partner can help your program thrive.

inSection is a full-service clinical outsourcing company and the exclusive outsourcing partner for the Pennsylvania Biotechnology Center.

Our teams have extensive experience across clinical trial stages and capabilities, including:

- Clinical trial planning
- Regulatory submissions
- Operations
- Compliance

Let's talk more about your specific needs. Schedule time today.

The Timothy M. Block Biotech Impact Award

presented to

Allen B. Reitz, PhD

CEO, Fox Chase Therapeutics Discovery Inc.

Dr. Reitz has more than four decades of accomplishments as a medicinal chemist in the pharmaceutical industry, including nearly 26 years with Johnson & Johnson and nine compounds that have entered human clinical trials, including mazapertine and troriluzole. He has more than 180 scientific publications and 82 issued U.S. patents.

Passion for Innovation.
Compassion for Patients.®

Get to know us.

With partnerships between patients, scientists, health care providers and advocates, Daiichi Sankyo creates life-changing solutions for the patients of today and tomorrow.

Daiichi Sankyo is excited to support this year's Regional Biotechnology Conference and the ongoing efforts of the Hepatitis B Foundation, Baruch S. Blumberg Institute, and Pennsylvania Biotechnology Center. We are proud to collaborate with these nonprofit organizations, whose work contributes to an exceptional shared ecosystem that fosters remarkable scientific innovation.
